The screenshot displays the HPE Discover Virtual Experience interface. On the left, there is a search bar with the text "Enter Keywords" and buttons for "Search" and "Clear". Below the search bar are filter categories: Content Type, Areas of Interest, Transformation, Recovery, Industry, and Delivery Format. A red number "1" is placed next to the filter section. The main area shows a list of sessions with columns for Session ID and Title. The sessions listed are: D208 (Capture the Full Potential of eSIM With HPE Digital Identity), B386 (Enhancing the Mobile Experience: Digital ID From eSIM to Digital Persona), D206 (Monetizing Innovative Telco Edge Services), B387 (Orchestration of the Edge in a 5G World), and D202 (Transforming the Telco Core Network). A red arrow points from the "+" button next to session D202 to a detailed view of that session. The detailed view shows the session title "Transforming the Telco Core Network", a share button, session ID "D202", a description, related sessions, session details (Content Type: Demo | Experience Showcase, Areas of Interest: 5G, IT Automation, as-a-Service, Transformation: Digital Transformation, Intelligent Edge, Industry: Communications, Media and Entertainment, Telco, Delivery Format: On Demand), and speakers: Andy Bryant (Telco/5G Marketing WW, Hewlett Packard Enterprise, View Profile) and Chris Daniel (5G Core Business Line Manager, Hewlett Packard Enterprise, View Profile).
